Clermont Water and Sewer Offering E-Bills
Save Time, Money, and Natural Resources

Batavia, Ohio. The Clermont County Water Resources Department is offering customers of county water and sewer services an opportunity to go paperless! Beginning in August 2010, citizens can receive their bimonthly bills electronically. The same information that is available on the bill you currently receive will be available through your e-mail.

To begin receiving an e-bill, Clermont water and sewer customers are encouraged to send an e-mail to WaterSewer@co.clermont.oh.us. To set up your e-bill, you will be asked to provide your name, account number, address, phone number, and e-mail address. During the first few months of this new service, customers will receive both bill versions.

If you do not want to receive the e-bill, **no** action is necessary.

According to the Javelin Strategy and Research firm, if every American household viewed and paid bills online, it could reduce solid waste in U.S. landfills by more than 800,000 tons a year. It could also help curb the release of greenhouse gases by 2.1 million tons. A recent CheckFree Consumer Bill Payment Trends survey (www.CheckFreeCorp.com) found that 85 percent of those questioned said that paying bills online saves them money related to paper and stamps.
